Dear company representative,

In our AGROTEC 2021 fair, we offer you cooperation to meet foreign purchasing delegations with local consumers and to expand your market.

The most important factor in choosing Ankara Gölbaşı Fairground is the importance we give to human health. AGROTEC has bravely adapted to the new circumstances in 2021. Our reason for choosing Ankara Gölbaşı Fairground with 110 thousand square meters open and semi-closed areas is to bring our exhibitors and visitors together in a spacious and safe environment with mutual satisfaction.

Our fair is within the scope of Republic of Turkey Ministry of Trade purchasing delegation support grant. You can visit our fair and take part in b2b meetings. We can provide you accomodation and transfer service from airport to area. If you take part in our fair with booth, our special discounts and best prices will be valid for you according to early registering advantages. The minimum participation area of our fair starts from 9 m². We will offer you the opportunity to participate with our special prices according to your location and square meter preferences determined in the fairground plan.

Best Regards,

Leyla YİĞİT ARAS
General Director
