XII FORUM OF KAZAKHSTAN MACHINERY MANUFACTURERS

April 25 – 26, 2024

Mechanical engineering is the key driver of manufacturing industry

PRESIDENT OF REPUBLIC OF KAZAKHSTAN KASYM-ZHOMART TOKAYEV

“

Having already become traditional, this dialogue platform has proven its effectiveness in finding new approaches to the development of the industry. In order to build a diversified economy, we need to achieve accelerated growth of the manufacturing industry based on innovations and advanced technologies. In solving this strategic goal, one of the key parts is assigned to mechanical engineering.

”

Domestic mechanical engineering, being the locomotive of the manufacturing industry, has been and remains the focus of the Government's attention. Our task is to increase the competitiveness of machine-building enterprises by creating affordable financial instruments, introducing new technologies, increasing local content and promoting exports.
